

MISCELLANEOUS INFORMATION

OPTIONAL HELICOPTER FLY-OUTS: Your week includes 0 or 2 heli fly-outs. Additional fly-outs can be added to your trip, but generally need to be scheduled with our charter company well before the summer season begins. Please inquire for pricing details and minimum requirements.

FLIES: All flies, lures and terminal tackle is provided. Of course, refer to the gear list if you'd like to bring your own. (Back-up and loaner rod/reels are available upon request.)

FISHING LICENSES: You must purchase your fishing license prior to your charter flight to camp. Licenses are approximately \$70 for a 7 day non-resident and can be purchased online at www.admin.adfg.state.ak.us/license/.

You DO NOT need a King Salmon stamp for the SAFARI camp.

CATCH AND RELEASE: In the spirit of sportsmanship and preserving our world-class fishing, we encourage catch and release on all species except for fish retained for meals at camp. We will serve plenty of fresh salmon and halibut throughout the week.

If you want to take fish back home, you may purchase it from the locals in King Salmon who can provide commercially caught wild salmon. We can help arrange this.

CLOTHING AND PERSONAL ITEMS: We have found over the years that cotton and wool clothing do not dry well in the Alaskan weather; therefore we **STRONGLY** recommend that your pullovers, shirts, camp pants, long underwear, etc. are synthetic, synthetic or wool blends, or polar fleece type clothing. Sept is typically colder than July/Aug so please adjust your gear.

LIMITED OPEN BAR: Our camp bar supply is based on *reasonable adult consumption averages* from over the years. If you or your party tends to consume more than an average, please supplement our supply with your own. Plastic bottles are best.

NON-FISHERMEN: If you have any non-fishermen in your group they should still bring waders and wading boots (hip waders at absolute minimum), as waders are still required to access many of our hikes.

FIREARMS: We do see bears throughout the season, but please do NOT bring personal firearms to camp.

TIPPING: For simplicity, we suggest each angler wait until the end of the week and pay approximately \$300 - \$600 TOTAL, to be divided up among camp and guide staff - cash or traveler's checks are easiest to distribute.

BEAR PEPPER SPRAY: Generally, the commercial airlines will not allow you to travel with bear pepper spray. Should you arrive King Salmon with it, or purchase some in King Salmon, **you must declare possession of it to the charter flight pilots so they can safely secure it for flight!**

RECHARGING BATTERIES: We can recharge your camera and camcorder batteries at camp with our solar panel power system, so don't forget your AC or DC battery chargers. (DC "cigarette lighter" chargers are preferred, but not mandatory).

MUSIC: We do have a small radio at camp, so bring your iPod if you like.

SATELLITE PHONE: If you need a satellite phone for personal/work use during your visit, please rent one prior to your arrival at camp from Outfitter Satellite. They may be reached at (877) 436-2255. There is a satellite phone available at camp for **EMERGENCY USE ONLY**. If you must talk with work or home, please rent a satellite phone.

During the season, personal and emergency messages from home or work may be relayed to camp through our info@epicanglingadventure.com email address or phone number, or as a back up method you may contact Egli Air Haul directly.

LEAVING PERSONAL ITEMS IN THE HANGER: If you are traveling elsewhere in Alaska before or after your week at camp, you may leave those extra items in the Egli Air Haul hanger to lighten your load to/from camp. Be sure and coordinate with an Egli Air Haul employee.

LEAVE TRAVEL PLANS WITH SOMEONE: Leave your flight itinerary, confirmation #'s and airline phone #'s with a family member in case you need to make changes to your schedule because of weather delays. We do have a satellite phone at the camp for situations like this, but it is often easier and more efficient to have a family make flight changes for you.

DEPARTING CAMP: Bring 1 or 2 plastic trash/garbage bags to pack your wet gear and dirty clothes.
